

BUSTED 818

3D computer animation / 05:09 min. / MiniDV / © 2002 Harald Holba

The first sequence of the video confronts the spectator with all details to the planned project. The deliberate destruction of a Mazda 818 by overspeeding the engine. In the following realtime sequence the visual information is reduced to a close-up showing the car instruments. Through the exact composition of the visual elements and the emotionalizing sound recording the inevitable break down of the combustion engine turns into a dramatic experience.

distribution / sixpackfilm

Harald Holba: *1977

Starts studying visual media at the university for applied arts in vienna in 1997. Completion of the course of visual media in summer 2004 with the degree of magister artium. Lives and works in vienna.
