

GAME OVER

Compositing / 07:43 min. / MiniDV / © 2002 Harald Holba, Elke Mayr

During a microwave defrost cycle, the harmless conversation of a couple sitting at a kitchen table develops into an argument which will seemingly explode at any moment. Framed by the graphic user interface of a video game and its animated graphics, which rate the emotional atmosphere and the significance of objects in the room with regard to the argument, the video's image is increasingly shifted into a virtual context...
